### **REASONS FOR ALLOWANCE**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Travis Boone on 5/3/2007:

Please add the following new paragraph after the paragraph beginning on page 4, line 18 and ending on page 4, line 24:

#### **BRIEF DESCRIPTION OF THE DRAWINGS**

Fig. 1 is a simplified schematic representation of process steps according to an embodiment of the present invention;

Fig. 2 is a schematic representation of a reactor assembly used in conjunction with an embodiment of the present invention; and

Fig. 3 is a schematic representation of a muffle furnace for a steel capacitor used in conjunction with an embodiment of the present invention.

The following is an examiner's statement of reasons for allowance:

The cross reference to the counterpart PCT application is not required.

The outstanding rejections under section 112, second paragraph are withdrawn in view of the amendments clarifying the claims.

The prior art rejections under sections 102 and 103 are withdrawn since Dubois fails to teach a process with the claimed catalyst. Moreover, Dubois fails to motivate

those of ordinary skill to modify a known acrylic acid process to include the required catalyst. An updated search of the prior art failed to uncover a reference that would have motivated those of ordinary skill to modify a known acrylic acid process to include the required catalyst.

The rejections under obviousness-type double patenting are withdrawn since the claims of both 10/497,210 and US 7,161,028 fail to motivate those of ordinary skill to modify a known acrylic acid process to include the required catalyst.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
